

RIGHT DATA. BETTER DECISIONS. EVERY TIME.

**CREATE YOUR MOST ACCURATE ESTIMATES
EVER WITH QAPTER ESTIMATING**

The next generation collision estimating platform from Audatex–Qapter Estimating–has a new user interface optimized for tablet usage for more mobility in the shop and in the field.

Qapter runs on the industry's most comprehensive collision database giving you quick access to reliable vehicle data providing accurate estimates for timely repairs. This cloud-based platform uses real-time repair data in a modern interface to provide your business with an inside-out approach to faster, seamless repairs the first time, every time.

CLOUD-BASED USER INTERFACE

Qapter enables multi-browser support giving you more flexibility to run the application from a tablet or PC. Newly released features include a newsfeed-style worklist, improved damage line editing and drag-and-drop bulk photo upload.

MORE ACCURATE PARTS AND LABOR PRICING

With web-based connectivity, your shop has access to real-time updates from our database, including always-up-to-date manufacturer part pricing and the release of new vehicle data.

TABLET FRIENDLY

Whether you're in the shop or out in the field, Qapter Estimating is optimized for tablet usage so you can write estimates anywhere. The new UI provides generous space between text fields for easy data entry and data field selection.

GET EVERY PIECE OF INFORMATION

Use the industry's most comprehensive estimating and VIN decoding for collision estimating and decode down to the 17th digit to get the exact vehicle you're working on and all of its options.

INTELLIGENT 3D GRAPHICS

Quickly select, review and identify parts in greater detail for more accurate and precise repairs with 3D graphics.

NEVER MISS A LINE ITEM

Never miss a line item when you run the automated estimate check feature. Review of every estimate and get suggestions on line items you may have missed.

A FULL SUITE OF APPLICATIONS

Qapter Estimating offers the most robust enhancements catalog for body shops that need more than just collision estimating. Every add-on is seamlessly integrated into the software to maximize your shop's efficiency.

- Digital Imaging
- Insurance Compliance
- Parts Locating
- Paintless Dent Repair
- Frame Dimensions
- In-Depth VIN Decoding
- 3D Graphics
- Estimate Compliance Tools
